Under the main page's Health Considerations, we can display an intro paragraph or two about the PHA and link to the document hosted on the ATSDR/TDSHS website. If there's any particular information you want me to share, let me know and we'll put it in that intro info.

We will not be holding a public meeting and we haven't been announcing them in the paper for a couple of years now because of the expense. EPA and the Houston Harris County have a web site set up for this site and I am going to ask them to put it there. And of course I will put it on ours. There will also be another EPA meeting in Channelview during the comment period so we can make the announcement there as well.

I'm guessing y'all won't be holding a community mtg for public comment but you'll be announcing it's availability in the local newspaper?

Stephen,

Can we post and notify the public on EPA's San Jacinto Website that the State Health Department is currently soliciting comments on the public health assessment for the site? I believe it would be beneficial to do so and encourage more comments.
